CENTRAL ENVIRONMENTAL AND ENERGY MANAGEMENT AS A KIT FOR SURVIVAL

Aims of the 3 EMT

- The 3 EMT provides a **self assessment** for companies
- **Benchmark report**, that provides comparisons of specific indicators with other companies
- A **simple and user-friendly** web-based tool with direct access via the CEEM website
(<http://www.ceemproject.eu>)

This project is implemented through
the Central Europe Programme co-financed by the ERDF

CENTRAL ENVIRONMENTAL AND ENERGY MANAGEMENT AS A KIT FOR SURVIVAL

Questionnaire

- The tool covers different relevant topics for energy efficiency and sustainability, e.g.
 - Energy consumption & management
 - Company building
 - Attitude towards green issues etc...
- Filling out the questionnaire needs about 45 minutes

This project is implemented through
the Central Europe Programme co-financed by the ERDF

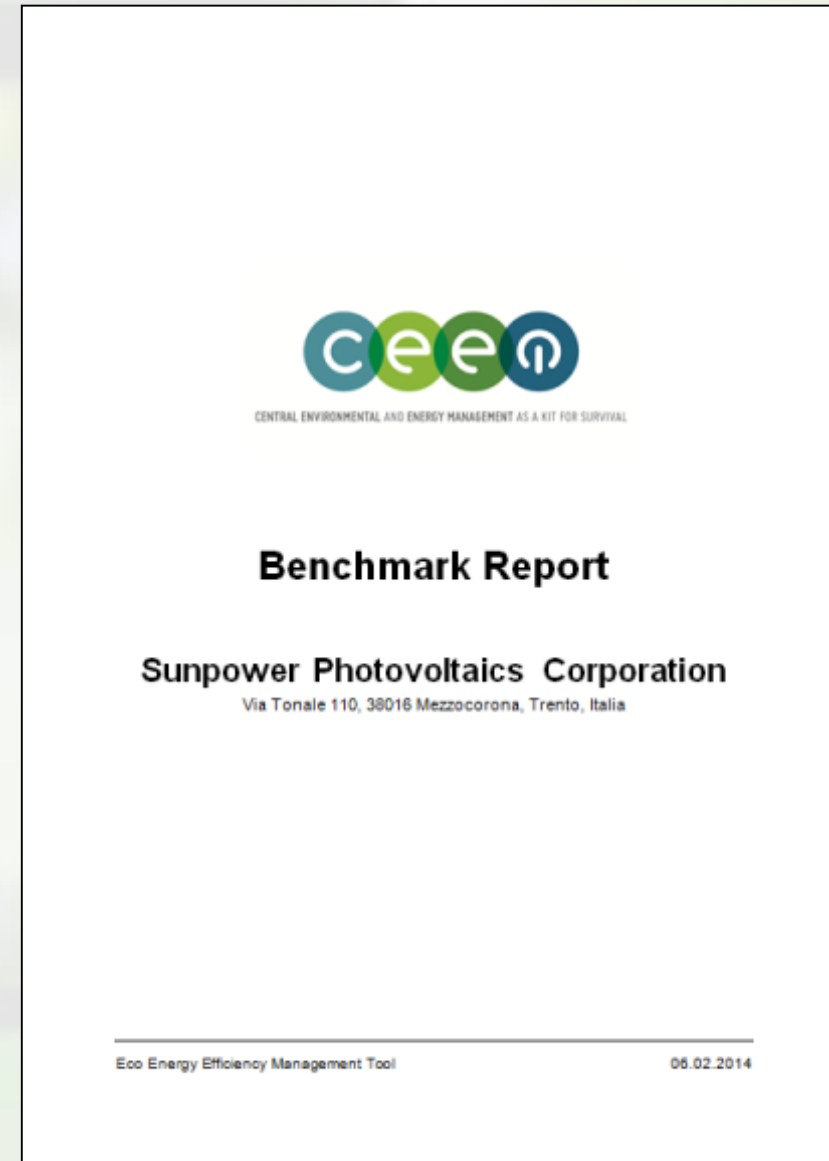

CENTRAL ENVIRONMENTAL AND ENERGY MANAGEMENT AS A KIT FOR SURVIVAL

Benchmark Report

- Status quo report about the company & comparison
- Qualitative & quantitative results
- Highlights strengths & weaknesses of a company
→ potentials for improvement
- Dynamic generation, benchmarking always with the actual database

This project is implemented through the Central Europe Programme co-financed by the ERDF
